Avant-propos	9
Foreword	10

SESSION 1. GENETIC RESOURCES, ASSESSMENT, MANAGEMENT

RESSOURCES GENETIQUES, EVALUATION, GESTION

O. FRANCI, G. GANDINI, R. BOZZI. Why and how to select a local porcine breed: The case of the Cinta Senese	13
E. ALVES, A. FERNÁNDEZ, C. BARRAGÁN, C. RODRÍGUEZ, L. SILIÓ. Bayesian analysis of genetic differentiation between populations of the Duroc and Iberian pig breeds	23
R. CHARNECA, M.J. VILA-VIÇOSA, J.L.T. NUNES. Evaluation of semen collected from Alentejano swine boars	29
R. CHARNECA, J.L.T. NUNES, J. LE DIVIDICH. Composition corporelle et croissance des porcelets de race alentejana et croisés (LW x LWxLR)	33
V. CHIOFALO, A. ZUMBO, L. LIOTTA, B. CHIOFALO. <i>In vivo</i> performance and carcass traits of Nero Siciliano pigs reared outdoors and in <i>plein air</i>	39
A. FERNÁNDEZ, J. GARCÍA-CASCO, E. DE PEDRO, L. SILIÓ, M.C. RODRÍGUEZ. Genetic antagonism between intramuscular fat content and primal cuts in Iberian pigs?	43
H. LENOIR. Effectifs et performances de reproduction, de croissance et de carcasse des races locales porcines Basque et Gasconne	47
M.J. MERCAT. Analyse de la variabilité génétique des races Basque et Gasconne à partir de l'information généalogique	51
C. RODRÍGUEZ, J. GARCÍA-CASCO, E. ALVES. Individual traceability of Iberian pigs: Electronic identification and validation using molecular markers	57
V. RUSSO, R. DAVOLI, L. FONTANESI, E. SCOTTI, S. BRAGLIA, M. COLOMBO, P. ZAMBONELLI. Use of single nucleotide polymorphisms to study variability in local and cosmopolitan pig breeds reared in Italy	61
I. PINHEIRO, R. GODINHO, J. SANTOS SILVA, J. PIRES DA COSTA, P.C. ALVES, N. FERRAND. Identification of genetic polymorphisms at RYR1, PRKAG3 and ESR loci in Portuguese autochthonous pig breeds	67
I. PINHEIRO, C. GORTÁZAR, P.C. ALVES. Genetic relationships between Iberian wild boar populations and domestic Portuguese pig breeds determined by mitochondrial DNA polymorphism	69

SESSION 2. FEEDING SYSTEMS AND FARMING SYSTEMS

SYSTÈMES D'ALIMENTATION ET SYSTÈMES D'ÉLEVAGE

J.L. TIRAPICOS NUNES. Livestock management to optimise carcass and meat characteristics in farming systems using natural resources	73
A. ACCIAIOLI, L. PIANACCIOLI, G. CAMPODONI, O. FRANCI. Estimation of the carrying capacity in some Tuscan woods grazed by Cinta Senese pig	83

G. FABBIO, F. GRIFONI, V. GONNELLI, C. BENVENUTI, O. FRANCI. Oak stands productivity and rearing of Cinta Senese in central Tuscany	89
F.O. FIGUEIREDO, J. SANTOS E SILVA, J.M. ABREU, J.S. PIRES DA COSTA. Influence du système d'alimentation et de logement (traditionnel et de plein air) sur la performance des porcins de la race Bísaro	95
A.B. FREITAS, J. NEVES, M. LANÇA, R. CHARNECA, J. TIRAPICOS NUNES. Influence of the feeding level on growth and carcass characteristics of Alentejano pigs	105
A.B. FREITAS, J. NEVES, R. CHARNECA, J. TIRAPICOS NUNES, J.M. MARTINS. Influence of slaughter weight on growth and carcass characteristics of Alentejano pigs	109
E. GONZÁLEZ, J.F. TEJEDA, M.J. MOTILVA, M.P. ROMERO. Phenolic compounds in subcutaneous adipose tissue from Iberian pigs	115
F. GRIFONI, V. GONNELLI, G. FABBIO, C. BENVENUTI. Rearing of Cinta Senese pigs in oak and chestnut stands in central Tuscany – Proposal of a field survey method to estimate type and intensity of the damage	119
J.M. MARTINS, J. NEVES, A. FREITAS, J. NUNES. Effects of body weight on some blood plasma parameters of pigs from the Alentejano breed	123
A.R. OLIVEIRA. An extract from a study of the main characteristics and composition of the carcass of the Alentejo pig breed (<i>Sus ibericus</i>)	129
S. PORCU, G. USAI, A. CARTA, S. LIGIOS. L'élevage du porc en Sardaigne entre histoire et actualité	137
J. SANTOS E SILVA, MARIA ENES, F.O. FIGUEIREDO, J.S. PIRES DA COSTA, J.M. ABREU. Grass utilization in growing finishing Bísaro pigs (85-107 kg). Performance and carcass composition	143
F. SIRTORI, C. PUGLIESE, R. BOZZI, G. CAMPODONI, O. FRANCI. Characterization of "lardo" from Cinta Senese pigs: Differences between seasoning techniques and starch sources	151
J.F. TEJEDA, E. GONZÁLEZ. α -tocopherol content and susceptibility to lipid peroxidation in muscle from Iberian pigs fed in two different "recebo" systems	155
J.F. TEJEDA, A.I. ANDRÉS, J. VENTANAS. Identification of branched hydrocarbons in subcutaneous fat from pigs reared outdoors	159
F. SECONDI, G. GANDEMER, F. CASABIANCA. Importance de la période de finition sur l'accumulation de lipides intramusculaires chez le porc corse	163
F. SECONDI, G. GANDEMER, F. CASABIANCA. Finishing period and accumulation of intramuscular fat for the Corsican pig	165
J.M. MARTINS, J. NEVES, A. FREITAS, R. ABREU, J. NUNES. Effects of body weight and rearing system on total lipids and cholesterol concentration of fresh <i>m. semimembranosus</i> and subcutaneous fat from Alentejano pigs	167
J. RUIZ, S. VENTANAS, M. ESTÉVEZ, D. MARTÍN, J. VENTANAS. Lipid oxidation in <i>longissimus dorsi</i> from Iberian pigs as affected by crossbreed and diet	169

SESSION 3. QUALITY OF MEAT AND MEAT PRODUCTS QUALITÉ DE LA VIANDE ET DES PRODUITS DERIVÉS

J. VENTANAS, J.F. TEJEDA, C. GARCÍA, M. ESTEVEZ, J. RUIZ, S. VENTANAS. Effets biologiques, technologiques et leurs interactions sur la qualité du jambon ibérique	175
T. ASTRUC, C. TERLOUW, G. MONIN, E. LAVILLE. Porcs lourds : Effets du type génétique, du mode d'élevage et des conditions d'abattage sur le comportement, la physiologie et les qualités des carcasses et des viandes	183

P. BALDINI, C. DIAFERIA, E. SPOTTI, A. FOLLINI, G. SARRA, E. BERNI, S. PALMISANO. Study of some production techniques of ripened salami; preparation of traditional products ripened for long time, use of traditional and innovatory operations	191
C.M.A. BARONE, N. CASTELLANO, P. COLATRUGLIO, A. ZULLO, D. MATASSINO. Rheological characteristics of dry cured ham of four Italian autochthonous genetic types of pig	197
R. BOZZI, G. CAMPODONI, A. ACCIAIOLI, C. PUGLIESE, L. PIANACCIOLI, F. SIRTORI. Characteristics of "Toscano" cured ham of Cinta Senese and Large White x Cinta Senese pigs	201
N. CASTELLANO, P. COLATRUGLIO, C.M.A. BARONE, G. GIGANTE, C.E. ROSSETTI, A. ZULLO, D. MATASSINO. Utilization of the Casertana pig to obtain traditional, typified labelled salami. II. Qualitative characteristics of meat at carcass jointing	207
A. DELGADO HUERTAS, E. DE PEDRO, J. GARCÍA OLMO, E. REYES. ¹⁵ N/ ¹⁴ N ratio and quality control of Iberian pig carcasses	213
E. DE PEDRO, M^a J. DE LA HABA, N. NUÑEZ, J. GARCÍA, A. GARRIDO. Evaluation of Iberian pig carcasses based on NIR spectra of pork loins	219
E. DE PEDRO, N. NUÑEZ, J. GARCÍA, D. APARICIO, M.I. CAMPOS, M.D. PÉREZ, V.M. FERNÁNDEZ, A. GARRIDO. Implementing near infrared spectroscopy in the Iberian pork industry	225
C. DIAFERIA, A. D' AMICO, G. MADONIA, S. MARGIOTTA, D.CARTABELLOTTA, V. PRUITI. Some characteristics of dry-cured ham obtained from Sicilian Nero pig: Comparison between two different ripening techniques	229
C. DUTERTRE, S. DARRÉ, I. DUPLANTIER, D. DUTOYA, J.M. HARGOUS, D. LANORE, D. TOULLIER, N. ROBERT. Comparaison de la qualité de viandes de porcs de six et neuf mois d'âge	233
G. GIGANTE, C.M.A. BARONE, N. CASTELLANO, P. COLATRUGLIO, C.E. ROSSETTI, M. OCCIDENTE, A. ZULLO, D. MATASSINO. Utilization of Casertana pig to produce traditional typified labelled salami. I. Data at slaughtering and jointing of carcass	243
M. HORTÓS, V. SANTÉ-LHOUTELLIER, J. ARNAU, G. MONIN. Proteomic characterisation of normal and pasty dry-cured hams	245
G. MADONIA, C. DIAFERIA, V.M. MORETTI, S. MARGIOTTA, E. MANGANELLI, V. PRUITI, F. CAPRINO, A. D'AMICO. Nero Siciliano pigs proposed as a traditional quality product: Comparison between salami made from black pig's meat and white pig's meat	251
D. MATASSINO, C.M.A. BARONE, F. CASSOTTA, F. INGLESE, M. OCCIDENTE, A. DI LUCCIA. Preliminary results of a proteomic study on "Fiocco" from Casertana ham at the end of seasoning	259
C. PUGLIESE, L. PIANACCIOLI, F. SIRTORI, A. ACCIAIOLI, R. BOZZI, O. FRANCI. Effect of pasture on chestnut woods on meat quality and fatty acid composition of fat in Cinta Senese pigs	263
N. ROBERT, D. LANORE. Les apports nutritionnels du jambon de Bayonne	269
V. RUSSO, D.P. LO FIEGO, L. NANNI COSTA, F. TASSONE. Study of some factors affecting the incidence of veining defect in thighs destined to dry-cured process of Parma ham	277
P. SANS, M.J. ANDRADE, M.E. MURIEL, J RUIZ. Étude du profil des composés volatils de jambons secs issus de porcs de race Gasconne	283
S. VENTANAS, J. VENTANAS, A. JURADO, J.A. CÁCEL, L. NIÑOLES. Use of low intensity ultrasound in fat back from pigs with different genetic background	287
S. VENTANAS, J. VENTANAS, J. RUIZ, J. BON, J. BENEDITO. Use of low intensity ultrasound in the <i>Longissimus dorsi</i> muscle from pigs with different genetic background	291
A. ZULLO, C.M.A. BARONE, P. COLATRUGLIO, C. DIAFERIA, G. GENOVINO, D. MATASSINO. Sensory evaluation of dry cured coppa in some swine autochthonous genetic types	295

J. GEORGES CAZAUX, A. PEYHORGUE, J. CASTAING. Critères d'identification des jambons issus de porcs alimentés avec du maïs dans le cadre de la production "IGP de Jambon de Bayonne" (jambons issus de porcs conventionnels, de porcs lourds et de truies charcutières)	299
CL. GAMBOTTI, O. MAESTRINI, F. CASABIANCA. Evaluation d'une pratique traditionnelle. Le cas du salage du "Prisuttu" en Corse	301

SESSION 4. HEALTH AND HYGIENE APPROACH TO FARMING AND SUPPLY CHAINS
APPROCHE HYGIÉNIQUE ET SANITAIRE DES ÉLEVAGES ET DES FILIÈRES

LEBERT, P. GIAMMARINARO, S. MOROT-BIZOT, S. LEROY, R. TALON. Microbial ecosystems of processing units and traditional products in France	305
---	-----

SESSION 5. MARKETING AND DESIGNATION OF ORIGIN
MISE EN MARCHÉ ET DÉNOMINATION D'ORIGINE

G. GIRAUD. Perception des produits carnés labellisés par les consommateurs	317
M. ČANDEK-POTOKAR, M. ARH. Evaluating market prospects for Prekmurje dry ham in relation to consumption characteristics of dry meat products in Slovenia	327
A. LEBECQUE, G. GIRAUD, C. AMBLARD, A. LUCAN, J.P. POMA. Analyse des profils sensoriels de jambons secs français et espagnols	333
J. RASON, J.-N. SERRA, A. LETORT, A. LEBECQUE. Perception des produits fermiers par les consommateurs	339

SYNTHESIS AND PERSPECTIVES
SYNTHÈSE ET PERSPECTIVES

F. CASABIANCA, A. AUMAÎTRE. Synthèse et perspectives	347
List of participants / <i>Liste de participants</i>	351

Mediterranean livestock production: Uncertainties and opportunities

Les productions de l'élevage méditerranéen : Défis et atouts

Proceedings of the 2nd Seminar of the Scientific-Professional Network on Mediterranean Livestock Farming (RME), jointly organized by the Mediterranean Agronomic Institute of Zaragoza of the International Centre for Advanced Mediterranean Agronomic Studies (CIHEAM-IAMZ), the University of Zaragoza and the Centre of Agro-food Research and Technology of Aragón (CITA) of the Government of Aragón, in collaboration with the Spanish National Institute for Agriculture and Food Research and Technology (INIA, Acción Complementaria AC05-018, cofinanced with ERDF) and the Department of Agriculture and Food of the Government of Aragón Zaragoza, Spain, 18 – 20 May 2006

Actes du 2^{ème} Séminaire du Réseau Scientifique-Professionnel Méditerranée Élevage (RME), organisé par l'Institut Agronomique Méditerranéen de Zaragoza du Centre International de Hautes Études Agronomiques Méditerranéennes (CIHEAM-IAMZ), l'Université de Zaragoza et le Centro de Investigación y Tecnología Agroalimentaria de Aragón (CITA) du Gouvernement d'Aragon, en collaboration avec l'Institut National de Investigación y Tecnología Agraria y Alimentaria (INIA, Acción Complementaria AC05-018, cofinancé avec FEDER) et le Département d'Agriculture et l'Alimentation du Gouvernement d'Aragon Saragosse, Espagne, 18 – 20 mai 2006

Challenging strategies to promote the sheep and goat sector in the current global context

Editors: M.J. Ranilla, M.D. Carro, H. Ben Salem, P. Morand-Fehr

Proceedings of the 13th International Seminar of the Sub-Network on Nutrition of the FAO-CIHEAM Inter-Regional Cooperative Research and Development Network on Sheep and Goats, "Challenging strategies to promote the sheep and goat sector in the current global context" jointly organized by the University of León, the Spanish National Research Council (CSIC) and the Mediterranean Agronomic Institute of Zaragoza with the International Centre for Advanced Mediterranean Agronomic Studies (IAMZ-CIHEAM), in collaboration with the Food and Agriculture Organization of the United Nations (FAO), and with the support of Ministerio de Ciencia e Innovación, Junta de Castilla y León, CSIC, Caja España, Syva, Inatega, Facultad de Veterinaria (U. of León) and Ayuntamiento de León León (Spain), 14-16 October 2009

Organized by:

List of contents

Foreword	7
----------------	---

Session 1: Strategies for sustainable production and landscape management. Manipulation of animal behaviour and interloping of other species

Coping with climate change and risk management strategies for sustainable rangeland-based systems in WANA Region – A. Nefzaoui and H. Ben Salem	11
Grazing: an alternative for low-yield barley crops – G. Olmos, A. Keli, A. de Vega, I. Delgado and J.A. Guada	23
Meal criterion and feeding behaviour in sheep and goats – M. Gorgulu, M. Boga, S. Sahinler, U. Kilic and N. Darcan	31
A quantitative approximation to the transformation of two dairy sheep farms to organic production – C. Hidalgo, M.P. Rodríguez and C. Palacios	35
Digestibility and ruminal fermentation of diets differing in forage type and forage to concentrate ratio in sheep and goats – S. Ramos, E. Molina-Alcaide, G. Cantalapiedra-Hijar, D.R. Yáñez-Ruiz, M.L. Tejido and M.D. Carro	41
Effect of catalytic and energy supplementation on kid performance grazing natural rangeland in north-west Tunisia – H. Ammar, M. Kamoun and S. López	47
A comparison of the nutritive value of organically and conventionally grown barley and wheat crops – M.L. Tejido, M.J. Ranilla, C. Palacios, C. Saro, A. Sosa, A. Díaz and M.D. Carro	53

Session 2: Rumen microbial ecology and metabolism in sheep and goats. Microbiome, digestion, manipulation and welfare

Reducing methane emissions in ruminants: is it an achievable goal? – D.P. Morgavi, M. Eugène, C. Martin and M. Doreau	65
Effect of type roughage and level of barley supplementation on digestibility, rumen fermentation and microbial-N yield – A. Belanche, G. De la Fuente, J.A. Guada and J. Balcells	75
Effect of the dietary supplementation with sunflower and fish oils on the rumen bacterial communities in dairy sheep – A. Belenguer, P.G. Toral, P. Frutos, E. Bichi and G. Hervás	85

<i>In vitro</i> predation of pure bacterial species by rumen protozoa from monofaunated sheep, determined by qPCR – G de la Fuente, D P. Morgavi, A. Belanche and M. Fondevila	91
Protozoa evolution in Rusitec fermenters fed diets differing in forage to concentrate ratio and forage type – M E. Martínez, M J. Ranilla, S. Ramos, M L. Tejido and M D. Carro	97
Study of the animal to animal variability in bacterial community structure in the goats' rumen – D R. Yáñez-Ruiz, E.C. Soto, C J. Newbold and E. Molina-Alcaide	103
Effect of forage type and forage to concentrate ratio on ruminal fermentation in single-flow continuous-culture and Rusitec fermenters – M E. Martínez, M.D. Carro, G. Cantalapiedra-Hijar, M J. Ranilla, D R. Yáñez-Ruiz and E. Molina-Alcaide	109
Effects of garlic compounds on the <i>in vitro</i> ruminal fermentation promoted by diets based on alfalfa hay – A.I. Martín-García, M P. García-Pareja and E. Molina-Alcaide	115
Evolution of fermentation parameters in Rusitec fermenters operated at different dilution rates and concentrate retention times – M E. Martínez, M J. Ranilla, S. Ramos, M L. Tejido and M D. Carro	121
Effect of diet and bacterial pellet on the bacterial N and amino acid flows from single-flow continuous-culture fermenters – E. Molina-Alcaide, A. Moumen, A I. Martín-García and M D. Carro	127
Discrimination of different categories of forages harvested from North-western Italy according to near infrared reflectance spectroscopy, chemical composition and <i>in vitro</i> digestibility – F. Opsi, S. Tassone, R. Fortina, S. Andrés, S. López	133
Validation of sheep rumen fluid frozen in liquid N as inoculum for <i>in vitro</i> gas production trials – A. Prates, J.A. de Oliveira, G. de la Fuente, L. Abecia and M. Fondevila	141
Effect of essential oils on ruminal fermentation, microbial population and methane emission <i>in vitro</i> – S.M.A. Sallam, S A.M. Abdelgaleil, I C S. Bueno, M E A. Nassera, R C. Araujo and A L. Abdalla	149
Comparison of direct and indirect methods for estimating microbial protein synthesis in sheep – S. Ramos, M.L. Tejido, M E. Martínez, M J. Ranilla, C. Saro and M D. Carro	157
The effect of olive, sunflower or linseed oils on the fermentation pattern and methane production in the rumen simulating technique – J E. Vargas, S. Andrés, D.R. Yáñez Ruiz and S. López	163
Diversity of bacterial communities isolated from the solid and liquid phase of the rumen of sheep fed diets of variable composition – C. Saro, M D. Carro, M L. Tejido and M J. Ranilla	169
Effects of <i>Aspergillus oryzae</i> on <i>in vitro</i> ruminal fermentation – A. Sosa, J. Galindo, M L. Tejido, A. Díaz, M.E. Martínez, C. Saro, M D. Carro and M J. Ranilla	175
Effects of a yeast enzymatic hydrolyzate on <i>in vitro</i> ruminal fermentation – A. Díaz, C. Saro, M L. Tejido, A. Sosa, M E. Martínez, J. Galindo, M D. Carro and M J. Ranilla	181

Session 3. Feeding strategies to improve small ruminant production in the current global context. Global warming impact on sheep and goat production

The effect of undernutrition on the establishment of pregnancy in the ewe – J A Abecia, C. Sosa, F. Forcada and A. Meikle	189
Difference in trace mineral status among genetic groups of goats – G. Radhika, K C. Raghavan, S. Ajithkumar, K V. Reghunandan, R. Alex and N. Thomas	195
Nutritional and animal factors affecting nitrogen excretion in sheep and goats – M. Decandia, A S Atzori, M. Acciari, A. Cabiddu, V. Giovanetti, E. Molina-Alcaide, M D. Carro, M J. Ranilla, G. Molle and A. Cannas	201
Digestive tract contents in light lambs as affected by forage inclusion and weaning – J. Álvarez-Rodríguez, A. Sanz, I. Blasco, R. Ripoll and M. Joy	211
Effects of the inclusion of <i>Knautia arvensis</i> in the concentrate for fattening lambs on feed intake, digestibility and growth performances – R. Bodas, F J. Giráldez, A B. Rodríguez, R J. Wallace, J S. González and S. López	219
The effect of naringin on plasma lipid profile, and liver and intramuscular fat contents of fattening lambs – R. Bodas, Ó. López-Campos, N. Prieto, F J. Giráldez, S. López and S. Andrés	223
Sunflower oil plus cholesterol and fish oil for fattening lambs: effects on plasmatic parameters – R. Bodas and R I. Richardson	227
Water intake of dairy goats in intensive systems – S. Ciger-Reverdin, P. Morand-Fehr and D. Sauvant	233
Prediction of feeding value of some Tunisian hays using chemical composition and <i>in vitro</i> fermentation characteristics – N. Moujahed, A. Khelifa, Y. Bouaziz, Ch. Ben Mustapha and Ch. Kayouli	239
Nutritive value and essential oils characterization of <i>Rosmarinus officinalis</i> and <i>Thymus capitatus</i> from the central region of Tunisia – N. Moujahed, Y. Bouaziz, A. Ben Jannet and Z. Chrabi	245
Whole citrus fruits in total mixed rations for Mediterranean milking ewes. Milk production and composition – O. Piquer, M. Rodríguez, E. Blas, A. Cerisuelo, C. Fernández and J J. Pascual	251
Effect of ash from different residual biomass used to obtain renewable energy on ruminal fermentation of diets based on wheat straw in batch cultures – M. Romero-Huelva, A I. Martín-García, R. Nogales and E. Molina-Alcaide	259
Increase in water-soluble total antioxidant capacity of sheep's milk as a result of increased grazing time – J C. Ruiz de Gordo, M. Bustamante, J. Arranz, M. Virto, L J R. Barrón, I. Beltrán de Heredia, G. Amores, E. Abilleira, A I. Nájera, R. Ruiz, M. Albisu, F J. Pérez-Elortondo, N. Mandaluniz and M. de Renobales	267

Influence of quebracho tannins administration on some blood metabolites in sheep and goats – A Z M Salem, S López, M J. Ranilla and J S González	273
Effect of water deprivation during last pregnancy and post-partum period on Barbarine ewes performances and lamb's growth – S Mleil, N Lassoued, H Ben Salem and K Kraïem	279
An <i>in vitro</i> evaluation of the potential use of greenhouse wastes to replace barley in goats' diets – E C. Soto, D R Yáñez-Ruiz, H Khelil and E. Molina-Alcaide	285

Session 4: Interactions nutrition-parasites in sheep and goats

The anthelmintic properties of tannin-rich legume forages: from knowledge to exploitation in farm conditions – H Hoste, F Manolaraki, S Brunet, C Arroyo López, C Martínez-Ortiz de Montellano, S Sotiraki, F. Torres Acosta	295
Parasite-induced anorexia and its association with the immune response and plasma leptin concentrations in lambs of two genotypes – K Zaralis, B J. Tolkamp, A R G Wylie, J G M Houdijk, M Stear and I. Kyriazakis	305
Breed dependent nutritional sensitivity of periparturient relaxation of immunity to nematode parasites in sheep – A Kidane, J G M. Houdijk, S. Athanasiadou, B J Tolkamp and I Kyriazakis.....	313
Effects of the use of heather as anthelmintic in goats infected with <i>Trichostrongylus colubriformis</i> on ruminal fermentation and digestibility – P. Frutos, G Hervás, R Celaya, J Moreno-Gonzalo, A.B. Rodríguez, U. García, I Ferre, L. M. Ortega-Mora and K. Osoro	321
Alternative treatments in the control of psoroptic mange in a sheep flock under organic production conditions – C Palacios, M A Lafuente and L F. de la Fuente	329

Round table: Nutritional strategies to improve milk and meat quality in sheep and goats

Milk production and fatty acid profile after three weeks of diet supplementation with sunflower oil and marine algae in dairy ewes – P.G. Toral, P. Gómez-Cortés, P. Frutos, M A de la Fuente, M Juárez and G. Hervás.....	337
Effect of the administration of PEG on milk yield and composition in sheep browsing a tanniferous fodder tree – H Ammar, S. López, F. Opsi, R Bodas, J S González and S Andrés. .	343
Effect of part-time grazing and alfalfa hay supplementation on fatty acid content of sheep's milk – G Amores, M Virto, J Arranz, L J R Barrón, E Abilleira, I Beltrán de Heredia, J C Ruiz de Gordo, A I Nájera, R Ruiz, M Albisu, F J Pérez-Elortondo, N Mandaluniz and M de Renobales	349

Effect of the production system in the fatty acid profile of Payoya goat kids – J.L. Guzmán, L.A. Zarazaga, I. Celi and M. Delgado-Pertíñez	355
Fatty acid composition of lambs suckling ewes fed with different vegetable oils – T. Manso, R. Bodas, C. Vieira, T. Castro and A.R. Mantecón	361
Effects of local crop residues and agro-industrial by-products on milk yield and quality of Syrian Awassi ewes – S. Abbeddou, H.D. Hess, B. Rischkowsky and M. Kreuzer	365
List of participants	371

The use of remote sensing and geographic information systems for irrigation management in Southwest Europe

Coordinators: M. Erena, A. López-Francos, S. Montesinos, J.-F. Berthoumieu

Instituto Murciano de
Investigación y Desarrollo
Agrario y Alimentario

CIHEAM
MAI ZARAGOZA

This publication has been financed by the TELERIEG project (The use of remote sensing for irrigation practice, recommendation and monitoring in the SUDOE space), contract no. SOE1/P2/E082, co-financed by the Interreg IV B SUDOE Programme (Southwest European Space Territorial Cooperation Programme) through the European Regional Development Fund (EU-ERDF), within the framework of the European Territorial Cooperation Objective for 2007-2013.

List of contents

Foreword	3
----------------	---

Introduction

The TELERIEG project – Erena M, López Francos A	7
Background of TELERIEG Project – Berthoumieu J-F.	15
Geographic Information Systems: Data versus information. Introduction to Remote Sensing – Montesinos S, Fernández L	25
Generation and interpretation of images – Montesinos S, Fernández L	31
Spanish National Remote Sensing Program, a way to achieve massive use of remote sensing data – Peces JJ, Villa C, Arozarena A, Plaza N, Tejero JA, Domenech E	37
Introduction to ILWIS GIS tool – Montesinos S, Fernández L	47

Applications of remote sensing of low resolution

Use of remote sensing for the calculation of biophysical indicators – Hernández Z, Sánchez D, Pecci J, Intrigliolo D S, Erena, M.	55
Assessment of vegetation indexes from remote sensing: Theoretical basis – García Galiano, S.G	65

Applications of remote sensing of medium resolution

Estimation of irrigated crops areas: Generation of water demand scenarios – Montesinos S, Fernández L	79
Remote sensing based water balance to estimate evapotranspiration and irrigation water requirements. Case study: Grape vineyards – Campos I, Boteta L, Balbontín C, Fabião M, Maia J, Calera, A	85
Models for assessment of actual evapotranspiration from remote sensing: Theoretical basis – García Galiano S.G, Baille A	95
Estimation of actual evapotranspiration from remote sensing: Application in a semiarid region – García Galiano S.G, García Cárdenas R.	105

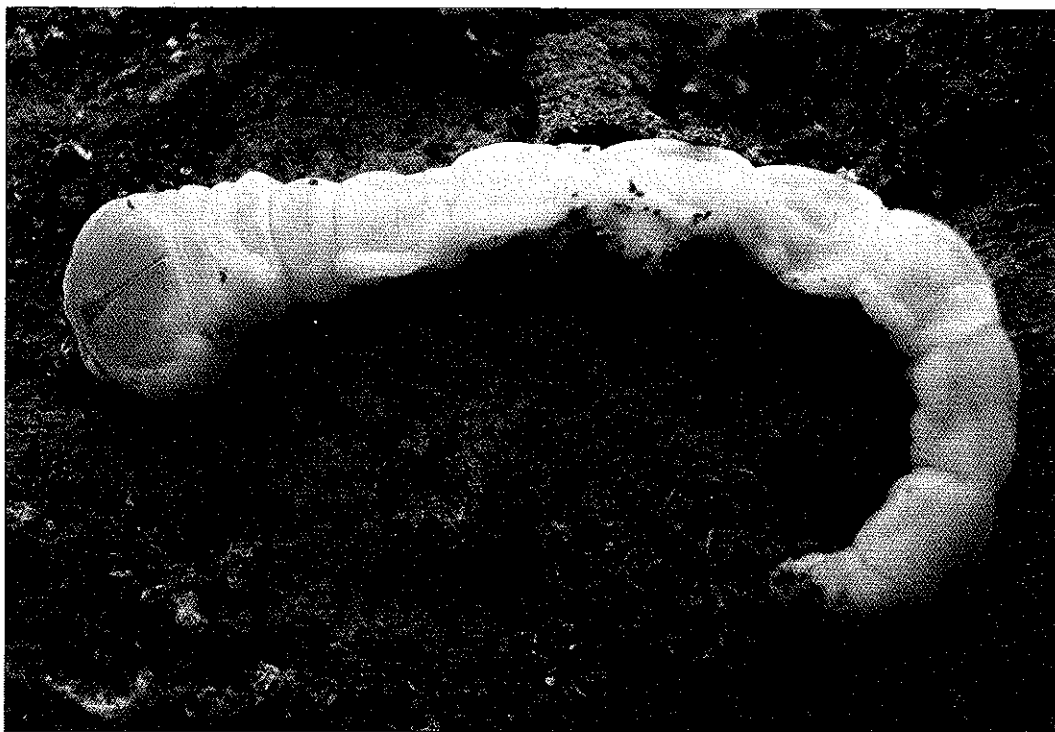

Applications of remote sensing of high resolution

Thermostress. An automatic imaging process for assessing plant water status from thermal photographs – Jiménez-Bello M A, Ballester C, Castel J R, Intrigliolo, D S	121
The use of multispectral and thermal images as a tool for irrigation scheduling in vineyards – Bellvert J, Girona J	131
Study of the effects of irrigation on stem water potential and multispectral data obtained from remote sensing systems in woody crops – Alarcón J J, Pérez-Cutillas P.	139
Use of remote sensing and geographic information tools for irrigation management of citrus trees – Jiménez-Bello M A, Ruiz L Á, Hermosilla T, Recio J, Intrigliolo D.S.	147
Automated extraction of agronomic parameters in orchard plots from high-resolution imagery – Recio J, T Hermosilla T, Ruiz L Á.	161
Thermal infra-red remote sensing for water stress estimation in agriculture – Labbé S, Lebourgeois V., Jolivot A., Marti R	175
Contribution of airborne remote sensing to high-throughput phenotyping of a hybrid apple population in response to soil water constraints – Virlet N, Martínez S, Lebourgeois V., Labbé S, Regnard J L	185

Case studies

Irrigation Decision Support System assisted by satellite. Alqueva irrigation scheme case study – Maia J, Boteta L, Fabião M, Santos M, Calera A, Campos I.	195
Transpiration and water stress effects on water use, in relation to estimations from NDVI: Application in a vineyard in SE Portugal – Ferreira M I, Conceição N, Silvestre J, Fabião M. ...	203
Contribution of remote sensing in analysis of crop water stress. Case study on durum wheat – Jolivot A, Labbé S, Lebourgeois V.	209
Application of INSPIRE directive to water management on large irrigation areas – Erena M, García P, López J A, Caro M, Atenza J F, Sánchez D, Hernández Z, García R.M., García R P.	217
Soil salinity prospects based on the quality of irrigation water used in the Segura Basin – Alcón F, Atenza J F, Erena M, Alarcón J J	223
Radar-aided understanding of semiarid areas: Maximum depression storage and storm motion – García-Pintado J, Barberá G G, Erena M, Lopez J A, Castillo V.M, Cabezas F.	231

Small Farms in the United States Persistence Under Pressure

Robert A. Hoppe, James M. MacDonald, and Penni Korb

Contents

Summary	iii
Introduction	1
Data Sources	1
Measuring Farm Size	2
Measuring Sales	2
Does the Choice of a Measure Matter?	3
Sorting Farms by Size Class	4
Small Farms' Share of Farms, Production, and Farmland	6
Small and Large Farms Focus on Different Products	8
Small Farms Are a Major Source of Some Commodities	10
Farms and Farm Operators	11
Secondary Operators and Their Farms	11
Principal Farm Operators	12
Financial Performance Improves With Farm Size	16
Operating Profits Are Low for Small Farms	17
But Many Small Farms Are Profitable	18
Off-Farm Income Supports Small-Farm Households	20
Farm and Off-Farm Sources of Income	21
Wealth of Farm Households	21
Small Farms and Farm Policy	23
Commodity-Related Payments	23
Conservation Payments	26
Shifts to Very Small and Very Large Farms	27
Shifts in the Distribution of Farms	28
Shifts in the Distribution of Sales	28
Summary and Discussion	30
