# **Problems and Research Perspectives of Agricultural Environment in the Tropical and Subtropical Islands**

Proceedings of JIRCAS 2005 International Symposium in Ishigaki

*Edited by Kazuo Shibano*

JIRCAS International Symposium Series No. 13

March 2006

Japan International Research Center for Agricultural Sciences (JIRCAS)

# Contents

## Foreword

Shuichi Asanuma .....	7
-----------------------	---

## Opening address

Mutsuo Iwamoto .....	9
Shigeru Motai .....	11
Takanobu Ohama .....	12

## Session 1. Characteristics of agricultural environments in the tropical and subtropical islands

Introductory Remarks on Interactions between Crop Cultivation and the Environment: Nutrio-physiological Principles and Some Examples Yamaguchi, J. ....	15
The Characteristics of Climate in Subtropical Islands around Japan Kuwagata, T. ....	25
Characteristics of coral reef islands and impacts of agriculture on coral reefs Hashimoto, K. ....	33

## Session 2. Problems in agricultural environments in the islands in the Pacific Ocean and research perspectives (Country Report)

SOIL, WATER AND CLIMATIC RESOURCES OF THE PHILIPPINES: CONSTRAINTS, PROBLEMS AND RESEARCH OPPORTUNITIES Rondal, J. D. ....	41
PROBLEMS AND RESEARCH PERSPECTIVES ON THE AGRICULTURAL ENVIRONMENT IN THE TROPICAL AND SUBTROPICAL ISLANDS CASE STUDY : Fiji Turagakura, A. ....	53
New Caledonia: can agriculture protect "the Island nearest to Paradise" ? Menesson, T. A. ....	69
Problems facing and research perspectives on the agricultural environment in Okinawa, Japan Nakamori, H. ....	75

### **Session 3. Countermeasure researches against problems in agricultural environments in tropical and subtropical islands**

Diversity of Soils and Soil Management Measures in Tropical and Subtropical Islands Hamazaki, T. ....	83
Red Soil Runoff from the Miyara River, and an Environmental Problem on Ishigaki Island Banzai, K. ....	97
Actual state and perspectives of multipurpose cover crop research: Combination of mulch-purpose cover crops with zero-tillage farming Nagumo, F. ....	103
The Xeromorphic Reaction: Permanent Effects of Short Dry Spells on Crop Production; the Use of Foliar Water Spray to Reduce their Damage Ozawa, K. ....	107
Heat injury in fruit vegetables and high-temperature control technology Suzuki, K. ....	117

# **Sustainable Production Systems of Aquatic Animals in Brackish Mangrove Areas**

**Edited by Koji.Nakamura**

## Contents

Size Frequency, Abundance and Feeding Habits of Young Snappers ( <i>Lutjanus</i> spp.) and Groupers ( <i>Epinephelus</i> spp.) in the Matang Mangrove Estuary, Malaysia Yee-Hui Amy Then , Ving-Ching Chong, Heng Hing Moh and Yukio Hanamura .....	1
The Diet of Five Major Fish Species in Matang Mangrove Estuaries, Peninsular Malaysia Li-Lee Chew, Ai-Lin Ooi, Ving-Ching Chong and Yasuki Ogawa .....	7
Preliminary Report on the Spatio-Temporal Distribution of Hyperbenthos in the Merbok Mangrove Estuary Yukio Hanamura, Ryon Siow and Phaik-Ean Chee .....	15
Microbial Abundances in Shrimp Culture Ponds and Natural Mangrove Areas in Thailand Tomoko Sakami, Masaharu Tokuda, Toru Shimoda and Yoshimi Fujioka .....	19
Effect of Sediment Management Systems Using Sediment Suspension and Periodic Removal of Sediment on Water Quality and the Amount of Phytoplankton in a Closed Culture System for Black Tiger Prawns ( <i>Penaeus monodon</i> , Fabricius) Chumpol Srithong and Yoshimi Fujioka .....	23
Observation on Feeding of Shrimp Larvae on Natural Food in Tank Experiment Chittima Aryuthaka, Yoes Soemaryono, Nontawith Areechon and Suriyan Tunkijianukij .....	27
Studies on Role of Benthic Organisms as Food of Shrimp Aquaculture Yoshimi Fujioka, Chumpol Srithong and Toru Shimoda .....	31
Estimation of Mangrove Stands Productivity and Litter Production as Potential Food Source to Aquatic Animals Ryuichi Tabuchi, Daisuke Hoshino, Hiroyuki Tanouchi, Yoshimi Fujioka, Yukio Hanamura, Chittima Aryuthaka , Sompoch Nimsanthicharoen, Phaik-Ean Chee and Ryon Siow .....	37
The Use of Seaweed for Improving Water Quality in Brackish Water Shrimp Farming Ponds and Effects on Shrimp Health Kaoru Hamano, Isao Tsutsui and Prapansak Srisapoome .....	41
Arachidonic Acid Distribution in Mangrove Organisms in the Philippines, Malaysia and Japan. Hiroshi Y. Ogata, Kashfia Ahmed, Esteban S. Garibay, Denny R. Chavez, Hirofumi Furuita and Ving-Ching Chong .....	45

Arachidonic Acid Enrichment of Rotifers and Effects of Dietary Arachidonic Acid on Broodstock Performance of Rabbitfish <i>Siganus guttatus</i> Denny R. Chavez, Hiroshi Y. Ogata, Esteban S. Garibay, Hananiah T. Sollesta and Keneth R. Tibubos.....	49
Detection of Betanodaviruses from Different Organs of Broodstocks and Wild Juveniles of Orange-Spotted Grouper, <i>Epinephelus coioides</i> Ikunari Kiryu, Leobert D. de la Peña and Yukio Maeno .....	53
Analysis of the Sustainability of Extensive and Intensive Methods in Brackish Water Fishpond Culture Primarily Producing Shrimp in Three Southeast Asian Countries Tsutomu Matsuura .....	57
Preliminary Study on Water Quality Analysis of Shrimp Aquaculture Ponds in Thailand Megumi Nakamura, Kenichi Koga, Yoshimi Fujioka and Toru Shimoda .....	65

NOV 18 2004

JIRCAS Working Report No.45

ISSN 1341-710X

# **Development of low-input technology for reducing postharvest losses of staples in Southeast Asia**

*Final reports of the collaborative research project "Development of low-input  
technology for reducing postharvest losses of staples in Southeast Asia  
(FY2000-2004)"*

**Edited by**

**Y. Mori, T. Yoshihashi, K. Nakahara and S. Nakamura**

**Japan International Research Center for Agricultural Sciences (JIRCAS),  
Tsukuba, Japan**

# CONTENTS

## Preface

Yutaka Mori

(Director, Food Science and Technology Division, JIRCAS)

## Status of Postharvest Technology in Thailand ..... 1

Jirakorn Kosaisawe

(Director, Postharvest and Product Processing Research and Development Office, DOA)

## **Subject 1 ; Survey of postharvest losses of rice and identification of causes of quality change**

### Quality Evaluation of Rice in Thailand..... 5

Warunee Varayanond, Patcharee Tungtrakul, Vipa Surojanametakul, Rasamee Supasri and Tadashi Yoshihashi

### Changes in Quality of High-amylose Rice during Storage for Rice Noodle Production..... 13

Patcharee Tungtrakul, Vipa Surojanametakul, Rasamee Supasri, Warunee Varayanond and Tadashi Yoshihashi

### Role of Water Soluble Polysaccharide in Rice Pasting Behavior..... 17

Vipa Surojanametakul, Patcharee Tungtrakul, Warunee Varayanond and Tadashi Yoshihashi

### Structural Analysis of Water Soluble Polysaccharide in Rice ..... 23

Tadashi Yoshihashi, Vipa Surojanametakul, Patcharee Tungtrakul and Warunee Varayanond

## **Subject 2 ; Analysis of annual incidence of major stored-products insects, and mechanisms of damage and possible prevention**

### Fauna of Natural Enemies of Stored Rice Pests in Thailand ..... 31

Kazuhiko Konishi, Yoshinobu Nakatani, Kazuo Ogata, Porntip Visarathanonth and Satoshi Nakamura

### Population Dynamics of Insects in Rice mill Factories ..... 39

Satoshi Nakamura, Yupa Hanboonsong, Kazuhiko Konishi, Akihiro Miyanoshita and Taro Imamura

### Natural Enemies of Stored Product Insect Pests ..... 45

Porntip Visarathanonth

## **Subject 3 ; Development of low-input drying technology and biological control of stored-products insects using natural enemies and products**

### Simple and Low-input Drying Technology..... 53

Keiichi Inoue, Somchart Soporonorit, Kittisak Witinantakit, Somkiet Prachayawarakorn and Yutthana Tirawanichakul

Strategy for Paddy Drying under Hot and Humid Climates Including Some Related On-going Research Work.....	73
Somchart Soponronnarit	
Applicable Paddy Drying Systems in Thailand.....	77
Somchart Soponronnarit, Adisak Nathakaranakule and Somkiat Prachayawarakorn	
Use of Predatory Natural Enemies.....	91
Akihiro Miyanoshta, Taro Imamura, Rungsima Kengkarnpanich and Porntip Visarathanonth	
The Biology and Prey Range of <i>Peregrinator biannulipes</i> (Montrouzier & Signoret) (Hemiptera: Reduviidae), A Predator of Stored Product Insect Pests.....	95
Rungsima Kengkanpanich, Porntip Visarathanonth, Akihiro Miyanoshta, Taro Imamura and Akinori Nishi	
Effect of Temperature on Development of <i>Theocolax elegans</i> (Hymenoptera: Pteromalidae) Parasitizing Maize Weevil Larvae ( <i>Sitophilus zeamais</i> ) in Brown Rice.....	101
Jaitip Uraichuen, Taro Imamura, Akihiro Miyanoshta and Porntip Visarathanonth	
Use of Botanicals for Inhibiting Stored Rice Pests.....	107
Gassinee Trakoontivakorn, Ranue Juntarawimoon, Yupa Hanboonsong and Kazuhiko Nakahara	
Insect Growth Inhibitory and Antifungal Activities of Natural Volatile Compounds from Aromatic Plants .....	117
Kazuhiko Nakahara, Najeeb S. Alzoreky, Tadashi Yoshihashi, Huong T. T. Nguyen, Yupa Hanboonsong and Gassinee Trakoontivakorn	

#### **Subject 4 ; Development of environment-safe technologies for reducing postharvest losses of staples**

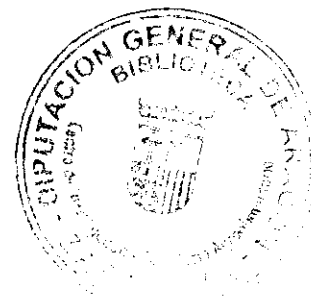

Effect of Cleaning on Insect Populations and Grain Losses in Rice Stores .....	127
Satoshi Nakamura, Porntip Visarathanonth, Rungsima Kengkarnpanich and Jaitip Uraichuen	
Toxicity of Natural Products Against the Natural Enemies of Stored Product Pests.....	131
Yupa Hanboonsong, Chutinun Choosai, Gassinee Trakoontivakorn and Kazuhiko Nakahara	
Relationship Between Drying Method and Quality of Rice.....	137
Tadashi Yoshihashi, Yuthana Tirawanichakul, Suppawan Tirawanichakul, Vipa Surojanamathakul, Porntip Visarathanonth, Rungsima Kengkanpanich, Jaitip Uraicheun, Patcharee Tangtrakul and Warunee Varanyanond

## Foreward

<b>I. Outline of IRRI-Japan Collaborative Research Project, Phase IV</b> .....	1
<b>II. Functional Genomics</b> .....	2
RFLP linkage map included the information of segregation distortion in a wide hybridization F <sub>2</sub> population derived between an Indica-type rice Milyang 23 and a Japonica-type rice Akihikari ( <i>Oryza sativa</i> L.) .....	3
Development of hybrid populations derived from a wide cross between an Indica and Japonica-type rice ( <i>Oryza sativa</i> L.) and DNA marker's linkage maps .....	10
Publications .....	18
<b>III. Genetic Enhancement for Yield, Grain Quality, and Stress Resistance</b> .....	20
The reaction patterns of quantitative trait loci (QTL) for days to heading under different regions of temperature and tropical zone in rice ( <i>Oryza sativa</i> L.) .....	22
Molecular marker dissection of rice ( <i>Oryza sativa</i> L.) plant type under temperate and tropical climates .....	32
Identification and characterization of quantitative trait loci affecting spikelet number per panicle in rice ( <i>Oryza sativa</i> L.) .....	41
Fine mapping and characterization of plant-type QTLs located on chromosomes 4 and 6 in rice ( <i>Oryza sativa</i> L.) .....	48
Quantitative trait loci affecting flag leaf development in rice ( <i>Oryza sativa</i> L.) .....	54
QTL analysis for rice floral morphological characters using recombinant inbred lines derived from a cross between <i>Oryza sativa</i> L. and <i>O. rufipogon</i> Griff .....	62
Variations of floral traits in Asian cultivated rice ( <i>Oryza sativa</i> L.) and its wild relatives ( <i>O. rufipogon</i> Griff.) .....	71
Genetic dissection of intraspecific variation in floral morphology in cultivated rice, <i>Oryza sativa</i> L. ....	80
Development of isogenic lines including unique agricultural traits with elite Indica-type varieties, IR61 and IR72, genetic backgrounds .....	85
Identification of low tiller gene in two rice varieties, Aikawa 1 and Shuho of rice ( <i>Oryza sativa</i> L.) .....	86
Collaborators .....	89
Publications .....	89

<b>IV. Managing Resources Under Intensive Rice-based Systems</b> .....	<b>93</b>
Inhibition of rice growth in the field by water drainage in fallow .....	94
Effects of single, double, and triple rice cultivation on the changes in pH and Fe(II) content of soil .....	102
Root-shoot interaction as a limiting factor of biomass productivity in new tropical rice lines .....	106
Recovery efficiency of nitrogen applied to irrigated lowland rice associated with different genotypes and hill spacings .....	118
Estimation of rice root growth and activity by 'new root' sampling .....	125
Collaborators .....	131
Publications .....	131
<b>V. Genetic Enhancement for Improving Productivity and Human Health in Fragile Environments</b> .....	<b>134</b>
Development of differential variety .....	135
An international standard differential variety set, monogenic lines, of blast resistance in rice ( <i>Oryza sativa</i> L.) .....	137
Development of near-isogenic lines with LTH genetic background .....	155
Development of near-isogenic lines with US-2 genetic background .....	159
Development of differential varieties for rice blast resistance with Indica-type rice, CO39, genetic background .....	162
Development of multi-line varieties .....	178
Near-isogenic lines of rice ( <i>Oryza sativa</i> L.) for blast resistance with the genetic background of Indica-type line IR49830-7-1-2-2 .....	179
Development of near-isogenic for blast resistance with Indica-type variety IR24 genetic background in rice ( <i>Oryza sativa</i> L.) .....	197
Quantitative trait loci (QTL)'s reactions to rice blast isolates from the Philippines and Japan, and identification of a resistance gene, <i>Pish</i> .....	203
Identification of a rice blast resistance gene <i>Pish</i> .....	208
Collaborators .....	210
Publications .....	210
Acknowledgement .....	213
Appendices	
Appendix 1. Out lines of IRRI-Japan Collaborative Research Project since 1984. ....	214
Appendix 2. Principle and objectives of IRRI-Japan Collaborative Research Project, Phase IV. ....	216
Appendix 3. Scholars, collaborators and NRS staff. ....	219
Appendix 4. Seed and materials distribution from October, 1999 to September, 2001. ....	221
Appendix Figure 1. Graphical genotype of monogenic lines .....	224
Appendix Figure 2. Graphical genotype of CO39 NILs .....	258
Appendix Figure 3. Graphical genotype and pictures of IR49830-7-1-2-2 NILs .....	293
Appendix Figure 4. Picture of CO39 NIL .....	305
Appendix Figure 5. Picture of monogenic line .....	309

## Appendix Figure 1. Graphical genotype of monogenic lines

1.1. Graphical genotype of a monogenic line, IRBLa-A. ....	224
1.2. Graphical genotype of a monogenic line, IRBLa-C. ....	225
1.3. Graphical genotype of a monogenic line, IRBLi-F5. ....	226
1.4. Graphical genotype of a monogenic line, IRBLks-F5. ....	227
1.5. Graphical genotype of a monogenic line, IRBLks-S. ....	228
1.6. Graphical genotype of a monogenic line, IRBLk-Ka. ....	229
1.7. Graphical genotype of a monogenic line, IRBLkp-K60. ....	230
1.8. Graphical genotype of a monogenic line, IRBLkh-K3. ....	231
1.9. Graphical genotype of a monogenic line, IRBLz-Fu. ....	232
1.10. Graphical genotype of a monogenic line, IRBLz5-CA. ....	233
1.11. Graphical genotype of a monogenic line, IRBLzt-T. ....	234
1.12. Graphical genotype of a monogenic line, IRBLta-K1. ....	235
1.13. Graphical genotype of a monogenic line, IRBLta-CT2. ....	236
1.14. Graphical genotype of a monogenic line, IRBLb-BL1. ....	237
1.15. Graphical genotype of a monogenic line, IRBLt-K59. ....	238
1.16. Graphical genotype of a monogenic line, IRBLsh-S. ....	239
1.17. Graphical genotype of a monogenic line, IRBLsh-B. ....	240
1.18. Graphical genotype of a monogenic line, IRBL1-CL. ....	241
1.19. Graphical genotype of a monogenic line, IRBL3-CP4. ....	242
1.20. Graphical genotype of a monogenic line, IRBL5-M. ....	243
1.21. Graphical genotype of a monogenic line, IRBL7-M. ....	244
1.22. Graphical genotype of a monogenic line, IRBL9-W. ....	245
1.23. Graphical genotype of a monogenic line, IRBL12-M. ....	246
1.24. Graphical genotype of a monogenic line, IRBL19-A. ....	247
1.25. Graphical genotype of a monogenic line, IRBLkm-Ts. ....	248
1.26. Graphical genotype of a monogenic line, IRBL20-IR24. ....	249
1.27. Graphical genotype of a monogenic line, IRBLta2-Pi. ....	250
1.28. Graphical genotype of a monogenic line, IRBLta2-Re. ....	251
1.29. Graphical genotype of a monogenic line, IRBLta-CP1. ....	252
1.30. Graphical genotype of a monogenic line, IRBL11-Zh. ....	253
1.31. Graphical genotype of a monogenic line, IRBLz5-CA. ....	254
1.32. Graphical genotype of the recurrent parent (RP), LTH. ....	255
1.33. Graphical genotype of a Japonica-type variety, Nipponbare. ....	256
1.31. Graphical genotype of an Indica-type variety, IR24. ....	257

**Appendix Figure 2 : Graphical genotype of CO39 NILs**

2.1. Graphical genotype of a CO39 NIL, IRBLb-IT13 CO. ....	258
2.2. Graphical genotype of a CO39 NIL, IRBLb-W CO. ....	259
2.3. Graphical genotype of a CO39 NIL, IRBLks-CO CO. ....	260
2.4. Graphical genotype of a CO39 NIL, IRBLk-Ku CO. ....	261
2.5. Graphical genotype of a CO39 NIL, IRBLk-Ka CO. ....	262
2.6. Graphical genotype of a CO39 NIL, IRBLkh-K3 CO. ....	263
2.7. Graphical genotype of a CO39 NIL, IRBLkm-Ts CO. ....	264
2.8. Graphical genotype of a CO39 NIL, IRBLkp-K60 CO. ....	265
2.9. Graphical genotype of a CO39 NIL, IRBLk**-F21 CO. ....	266
2.10. Graphical genotype of a CO39 NIL, IRBLk**-F14 CO. ....	267
2.11. Graphical genotype of a CO39 NIL, IRBLk**-F25 CO. ....	268
2.12. Graphical genotype of a CO39 NIL, IRBLk**-F40 CO. ....	269
2.13. Graphical genotype of a CO39 NIL, IRBLk**-F59 CO. ....	270
2.14. Graphical genotype of a CO39 NIL, IRBLk**-F66 CO. ....	271
2.15. Graphical genotype of a CO39 NIL, IRBLk**-K86 CO. ....	272
2.16. Graphical genotype of a CO39 NIL, IRBLk**-S CO. ....	273
2.17. Graphical genotype of a CO39 NIL, IRBL1-CL CO. ....	274
2.18. Graphical genotype of a CO39 NIL, IRBL7-M CO. ....	275
2.19. Graphical genotype of a CO39 NIL, IRBLsh-Ku CO. ....	276
2.20. Graphical genotype of a CO39 NIL, IRBLsh-S CO. ....	277
2.21. Graphical genotype of a CO39 NIL, IRBLsh-S CO-1. ....	278
2.22. Graphical genotype of a CO39 NIL, IRBLsh-B CO-2. ....	279
2.23. Graphical genotype of a CO39 NIL, IRBLsh-Fu CO. ....	280
2.24. Graphical genotype of a CO39 NIL, IRBLta-Ya CO. ....	281
2.25. Graphical genotype of a CO39 NIL, IRBL1a-Me CO. ....	282
2.26. Graphical genotype of a CO39 NIL, IRBLta2-Pi CO. ....	283
2.27. Graphical genotype of a CO39 NIL, IRBL1a2-Re CO. ....	284
2.28. Graphical genotype of a CO39 NIL, IRBLta2-IR64 CO. ....	285
2.29. Graphical genotype of a CO39 NIL, IRBLz5-CA CO. ....	286
2.30. Graphical genotype of a CO39 NIL, IRBLzt-IR56 CO. ....	287
2.31. Graphical genotype of a CO39 NIL, IRBL5-M CO. ....	288
2.32. Graphical genotype of an Indica-type variety, CO39. ....	289
2.33. Graphical genotype of a Japonica-type variety, Nipponbare. ....	290
2.34. Graphical genotype of an Indica-type variety, IR24. ....	291
2.35. Graphical genotype of an Indica-type variety, CO39. ....	292

### Appendix Figure 3 : Graphical genotype and pictures of IR49830-7-1-2-2 NILs.

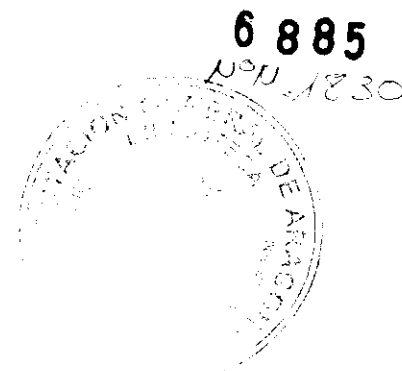

3.1. Graphical genotypes of Nipponbare and IR24. ....	293
3.2. Graphical genotypes of CO39 and IR19830-7-1-2-2. ....	294
3.3. Graphical genotypes of NIL IRBLk-Ku RL. ....	295
3.4. Graphical genotypes of NIL IRBL7-M RL (1) and IRBL7-M RL (2). ....	296
3.5. Graphical genotypes of NIL IRBL3-CP1 RL (1) and IRBL3-CP4 RL (2). ....	297
3.6. Graphical genotypes of NIL IRBL5-M RL (1) and IRBL5-M RL (2). ....	298
3.7. Graphical genotypes of NIL IRBLta2-Pi RL (1) and IRBLta2-Pi RL (2). ....	299
3.8. Graphical genotypes of NIL IRBLz-Fu RL. ....	300
3.9. Graphical genotypes of NIL IRBLz5-CA RL. ....	301
3.10. Graphical genotypes of NIL IRBL9-W RL. ....	302
3.11. Graphical genotypes of NIL IRBLsh-T RL. ....	303
3.12. Developed NILs of IR49830-7-1-2-2. (1) ....	304
3.13. Developed NILs of IR49830-7-1-2-2. (2) ....	304
3.14. Developed NILs of IR49830-7-1-2-2. (3) ....	304

## Appendix Figure 4 : Picture of CO39 NIL

4.1. Near isogenic line : IRBLb-IT13 CO. ....	305
4.2. Near isogenic line : IRBLb-W CO. ....	305
4.3. Near isogenic line : IRBLks-CO CO. ....	305
4.4. Near isogenic line : IRBLk-Ku CO. ....	305
4.5. Near isogenic line : IRBLk-Ka CO. ....	305
4.6. Near isogenic line : IRBLkh-K3 CO. ....	305
4.7. Near isogenic line : IRBLkm-Ts CO. ....	305
4.8. Near isogenic line : IRBLkp-K60 CO. ....	305
4.9. Near isogenic line : IRBLk**-F21 CO. ....	306
4.10. Near isogenic line : IRBLk**-F14 CO. ....	306
4.11. Near isogenic line : IRBLk**-F25 CO. ....	306
4.12. Near isogenic line : IRBLk**-F40 CO. ....	306
4.13. Near isogenic line : IRBLk**-F59 CO. ....	306
4.14. Near isogenic line : IRBLk**-F66 CO. ....	306
4.15. Near isogenic line : IRBLk**-K86 CO. ....	306
4.16. Near isogenic line : IRBLk**-S CO. ....	306
4.17. Near isogenic line : IRBL1-CL CO. ....	307
4.18. Near isogenic line : IRBL7-M CO. ....	307

# **Increasing Economic Options in Rainfed Agriculture in Indochina through Efficient Use of Water resources**

**Edited by  
O. Ito, J. S. Caldwell, M. Oda, Y. Yamamoto,  
H. Hamada and T. Nishida**

Japan International Research Center for Agricultural Sciences (JIRCAS),  
Tsukuba Japan

## Contents

### 1. Assessment of the Regional Water Availability and Identification of Factors Limiting More Efficient Use of Water in Existing Farming Systems

- 1 Rainfed Agriculture in Northern Laos - Identification of Land Use Cycles in Slash-and-Burn Agriculture by Satellite Imagery -  
Y. Yamamoto, T. Oberthür and R. Lefroy ..... 1
- 2 Soil Moisture Mapping in Northeast Thailand using Remotely Sensed Data  
S. Sukchan, Y. Yamamoto and K. Suzuki ..... 7
- 3 Hydrologic Modeling in Small Watersheds  
K. Suzuki, Y. Yamamoto and S. Sukchan ..... 11
- 4 Surface Water and Land Resource Use in Small Watersheds  
C. Ogura, S. Sukchan, A. Suchinal, M. Putiso ..... 17
- 5 Development of Technology to Prevent Leakage of Irrigation Pond by Soil Improvement  
S. Sridhavat, S. Hirunwatsiri, W. Wannapiyarat and C. Ogura ..... 23
- 6 Soil Water and Groundwater in Nong Saeng  
H. Hamada, T. Moroizumi, H. Watabe, K. Srisuk and S. Hasegawa ..... 27
- 7 Determination of Safe Yield by Groundwater Modeling in Nong Saeng Subwatershed  
K. Srisuk, P. Chaosak and H. Hamada ..... 33
- 8 The Existing Condition and Potential for Intensive Farming with Pond Irrigation in Northeast Thailand  
M. Ando, N. Suphanchaimat ..... 37
- 9 Farmers' Decision Making on the Use of Farm Ponds in Nong Saeng Villag  
N. Suphanchaimat, M. Ando, P. Prapertchob and P. Pakdee ..... 43

### 2. Development of Crop Production Technology for More Effective Water Use

- 1 Vapor Phase Water Movement in Paddy Fields after Drainage in Northeast Thailand  
K. Ozawa and P. Virakornphanich ..... 49
- 2 Nutrient Movement in Paddy Field in Northeast Thailand  
K. Nakamura and P. Chongpradinun ..... 53

- 3 Effect of Two Plant Densities and Three Levels of Input Technologies on Growth and Development of Two Types of Green Asper cv Pai Tong Khio on Sandy Loam Soils of Northeast Thailand  
P. Virakornphanich, M. Oda, and K. Ozawa ..... 57
- 4 Elucidation of Water and Nutrient Dynamics under Water-saving Cultivation  
P. Chongpraditnun, M. Oda and K. Nakamura ..... 63

### 3. Development of New Forages for Water-deficient Rainfed Conditions

- 1 Application of Microsatellite Markers for Cultivar Identification of Sugarcane Wild Species in Thailand  
M. Matsuoka, Y. Terajima, S. Fukuhara, A. Sugimoto, H. Takagi,  
W. Ponragdee and T. Sansayawichai ..... 73
- 2 Improved Chromosome Preparation for Sugarcane  
S. Fukuhara, W. Ponragdee, M. Matsuoka, A. Sugimoto, T. Sansayawichai,  
Y. Terajima, K. Ujihara, S. Irei and T. Sakaigaichi ..... 77
- 3 Improvement of Hybridization Procedure between Sugarcane and *Erianthus* spp.  
S. Irei, W. Ponragdee, T. Sansayawichai, M. Matsuoka, S. Fukuhara,  
Y. Terajima, K. Ujihara, T. Sakaigaichi, A. Sugimoto and H. Takagi ..... 81
- 4 Development of Sugarcane for Forage Use by Interspecific and Intergeneric Crossing  
W. Ponragdee, T. Sansayawichai, H. Takagi, T. Suzuki, M. Matsuoka,  
A. Sugimoto, S. Irei, Y. Terajima and S. Fukuhara ..... 85
- 5 Investigation on Cultivation Conditions and Yield of New Breeding Lines for Forage Use  
T. Sansayawichai, W. Ponragdee, I. Phaophaisal, T. Suzuki, H. Takagi and A.  
Sugimoto ..... 89
- 6 Fermentation Quality and Nutritive Value of Whole Crop Sugarcane Silage  
T. Suzuki, H. Kawamoto, I. Phaophaisal, W. Ponragdee, P. Pholsen, R.  
Narmsilee, S. Indramanee and S. Oshio ..... 93
- 7 Utilization of Near Infrared Spectroscopy for Selection; Prediction of Chemical Composition and Digestibility of Sugarcane (*Saccharum* hybrids) and its Wild Relatives (*S. spontaneum* and *Erianthus* spp.)  
M. Amari, T. Suzuki, I. Phaophaisal, W. Ponragdee, P. Pholsen,  
R. Narmsilee, S. Indramanee and S. Oshio ..... 97
- 8 The Effect of Cutting Frequency on Fermentation Quality, Digestibility and Nutritive Value of *Erianthus* spp. Silage  
I. Phaophaisal, W. Sumamal, M. Odai, P. Pholsen, R. Narmsilee, T. Suzuki,  
S. Indramanee and S. Oshio ..... 101

- 9 Dry Matter Degradability of Sugarcane (*Saccharum* hybrids) and its Wild Relatives (*S. spontaneum* and *Erianthus* spp.) harvested at 6 and 12 Months after Ratooning  
O. Enishi, T. Suzuki, I. Phaophaisal, W. Ponradgee, P. Pholsen,  
R. Narmsilee, S. Indramanee and S. Oshio ..... 105

#### 4. Adaptation and Integration into Farming Systems of New Technologies through Participatory Methods

- 1 A Framework for Farmer Participatory Technology Research  
J. S. Caldwell, U. Sukchan, S. Sukchan, N. Suphanchaimat, M. Ando, M. Oda,  
C. Ogura, K. Suzuki and I. Phaowphaisal ..... 109
- 2 The Invention Model: A New Type of Farmer-Researcher Partnership Created in Developing Water Saving Technologies  
M. Oda, U. Sukchan and J. S. Caldwell ..... 115
- 3 Nutritional Status of Cattle on Dairy Farms and in Mixed Agriculture Farms Raising Beef Cattle  
T. Suzuki, I. Phaophaisal, T. Kawashima, P. Pholsen, R. Narmsilee,  
S. Indramanee and S. Oshio ..... 121
- 4 Cattle Feeding is Now Popular in Village  
I. Phaowphaisal, T. Suzuki, S. Indramanee and S. Oshio ..... 125
- 5 On-farm Testing of Technologies for Integrated Farming -Rainfall Damage Protection and Efficient Water Use for Three Vegetable Crops in the Rainy Season: Year 1 Results-  
U. Sukchan, J. S. Caldwell, M. Oda and M. Wilaikaew ..... 129

## JIRCAS Working Report No. 49

# Supporting Farmer Decisions

## Reducing Production Risk

John S. Caldwell<sup>1</sup> (editor),

Hiromitsu Kanno<sup>2</sup>, Abou Berthe<sup>3</sup>, Mamadou Doumbia<sup>3</sup>, Takeshi Sakurai<sup>4</sup>,

Kaori Sasaki<sup>3</sup>, Abdouramane Yorote<sup>3</sup>, and Kiyoshi Ozawa<sup>1</sup>

## CONTENTS

1. Introduction: The Challenge of an Interdisciplinary and Participatory Response to Farmer-Level Climatic Variability and Risk in West Africa	
J.S. Caldwell .....	1
2. Reconnaissance, Site Selection, and Participatory Collaborator Selection	
J.S. Caldwell & A. Berthe .....	8
3. Weather Monitoring Design	
K. Sasaki & A. Yorote .....	18
4. Regional and Farmer-level Climatic Variability	
H. Kanno & K. Sasaki .....	21
5. Low Infiltration Decreases the Availability of Precipitation in Mali	
K. Ozawa & M. Doumbia .....	38
6. Farmer Cropping Strategies in Response to Variability in the Start of the Rainy Season	
J.S. Caldwell, A. Berthe, & K. Sasaki .....	45
7. Rainfall as an Idiosyncratic Shock: Evidence from West Africa Semi-Arid Tropics	
T. Sakurai .....	60
8. Overall Conclusions: Improved Strategies to Reduce Risk and Future Applications of this Methodology	
J.S. Caldwell .....	75
Appendix: Farmer-Level Field Weather Observation System for West Africa	
K. Sasaki & H. Kanno .....	79
