Horizon 2020 - Work Programme 2018-2020
Food security, sustainable agriculture and forestry, marine, maritime and inland water research and the bioeconomy

FNR-05-2020: Husbandry for quality and sustainability

Specific Challenge: Animal products constitute an important source of good quality, digestible proteins, minerals and vitamins in human consumption patterns and are part of a healthy and balanced diet. Due to the increasing demand at global level for animal derived food and the mounting pressure over land use, further intensification and expansion of animal production is expected. Development of the livestock sector at EU and global levels is challenged by a number of inter-related issues. The challenge is to ensure that the sector can meet the growing demand for animal products while maintaining the environmental, social and economic sustainability of the sector. The challenge is to ensure that the sector can meet the growing demand for animal products while maintaining the environmental, social and economic sustainability of the sector.

Cubrir el topic al 100%, dar respuesta a todo lo que se indica en los distintos apartados: reto, alcance, impactos, e instrumento

Tener en cuenta todos los matices de cada topic; área focal virtual, RRI, INCO, SSH, gender, presupuesto, ...

²⁴⁶ Livestock production systems for human food.

El consorcio

Mínimo **3 entidades** establecidas en diferentes Estados Miembros (EM) o Estados Asociados (EA)

Las tres entidades deben ser **independientes**

Abierto a **terceros países**, respetando las condiciones mínimas de participación

Duración del proyecto, presupuesto y número de socios **a decidir por el consorcio**

Puede participar cualquier entidad jurídica que cumpla con los requisitos establecidos en las [Reglas de Participación](#) y en los Programas de Trabajo correspondientes.

Tipos de acciones

Type of action	Funding	Aim of action	Evaluation
Research and Innovation Action (RIA)	100%	To establish new knowledge or explore the feasibility of a new technology, product, process, service or solution	TWO stages <i>(with a few exceptions)</i>
Innovation Actions (IA)	70% (100% for non-profit entities)	To produce plans and arrangements or designs for new, altered or improved products, processes or services	SINGLE Stage
Coordination and Support Actions (CSA)	100%	Accompanying measures	

Presupuesto primera fase – topics en 2 fases

Criteria de Evaluación

Excellence

- **Clarity and pertinence of the objectives;**
- **Soundness of the concept and credibility of the proposed methodology;**
- **Extent that the proposed work is beyond the state of the art, and demonstrates innovation potential (e.g. ground-breaking objectives, novel concepts and approaches, new products, services or business and organisational models)**
- **Appropriate consideration of interdisciplinary approaches and, where relevant, use of stakeholder knowledge.**

Impact

- **Extent to which the outputs of the project would contribute to each of the expected impacts mentioned in the work programme under the relevant topic;**
- Any substantial impacts not mentioned in the work programme, that would enhance innovation capacity, create new market opportunities, strengthen competitiveness and growth of companies, address issues related to climate change or the environment, or bring other important benefits for society;
- Quality of the proposed measures to:
 - Exploit and disseminate the project results (including management of IPR), and to manage research data where relevant.
 - Communicate the project activities to different target audiences.

Implementation

- Quality and effectiveness of the work plan, including extent to which the resources assigned to work packages are in line with their objectives and deliverables;
- Appropriateness of the management structures and procedures, including risk and innovation management;
- Complementarity of the participants and extent to which the consortium as whole brings together the necessary expertise;
- Appropriateness of the allocation of tasks, ensuring that all participants have a valid role and adequate resources in the project to fulfil that role.

Impactos esperados NO mencionados en el topic

Indicar de qué manera contribuirá el proyecto a alcanzar **otros impactos** considerables no mencionados en el programa de trabajo que permitan mejorar la capacidad de innovación:

1 Why do we need an Innovation Union?

Europe is facing many challenges! So we need to:

- create job opportunities for all, especially the young
- get the economy back on track
- make companies more competitive in the global market
- solve the challenges of an ageing population
- secure resources like food and fuel
- fight global warming
- improve smart and green transport

- crear **nuevas oportunidades de mercado**,
- fortalecer la **competitividad y el crecimiento empresarial**,
- abordar aspectos relacionados con el **cambio climático el medioambiente**
- aportar otros **beneficios** importantes para la **sociedad**.

Project Results

In a Nutshell

Keeping track of communication, dissemination and exploitation means keeping track of your project!

La Diseminación en H2020

What are the differences? Communications & Dissemination

Dissemination

- Results focus – interim & final
- Specialist audiences
- Specialist outlets
- Peer review process (mainly)
- At end of project (mainly)
- Impact factors primary interest
- Raise profile of scientists, group & institute as well as research issue (secure more funds!)

Fuente: Rhonda Smith. CommBeBiz. Bioeconomy to Business. H2020 Project

La Comunicación en H2020

What are the differences?

Communications & Dissemination

Communications

- From the very beginning
- The question the research is asking
- The solution it is trying to find
- The unmet need it is addressing
- Why this question is relevant and/or important for you & me & the planet
- How the question is being answered
- Who is 'doing' the asking & answering & where

Fuente: Rhonda Smith. CommBeBiz. Bioeconomy to Business. H2020 Project

El mandato de Acceso Abierto en H2020

¿Qué es el acceso abierto?

Acceso abierto: acceso *on line* sin trabas ni coste para el usuario final:

- a publicaciones científicas revisadas por pares.
- a datos de investigación.

Sin embargo, el acceso abierto:

- no implica la exigencia de publicar: los investigadores tienen libertad para decidir si publicar o no.
- no interfiere con la decisión de explotar comercialmente los resultados de investigación (ej. patentar): la obligación de depositar en acceso abierto se produce una vez se ha tomado la decisión de publicar.
- las publicaciones no son de menor calidad: están sometidas al mismo proceso de revisión por pares que las publicaciones de acceso comercial.

El mercado en H2020

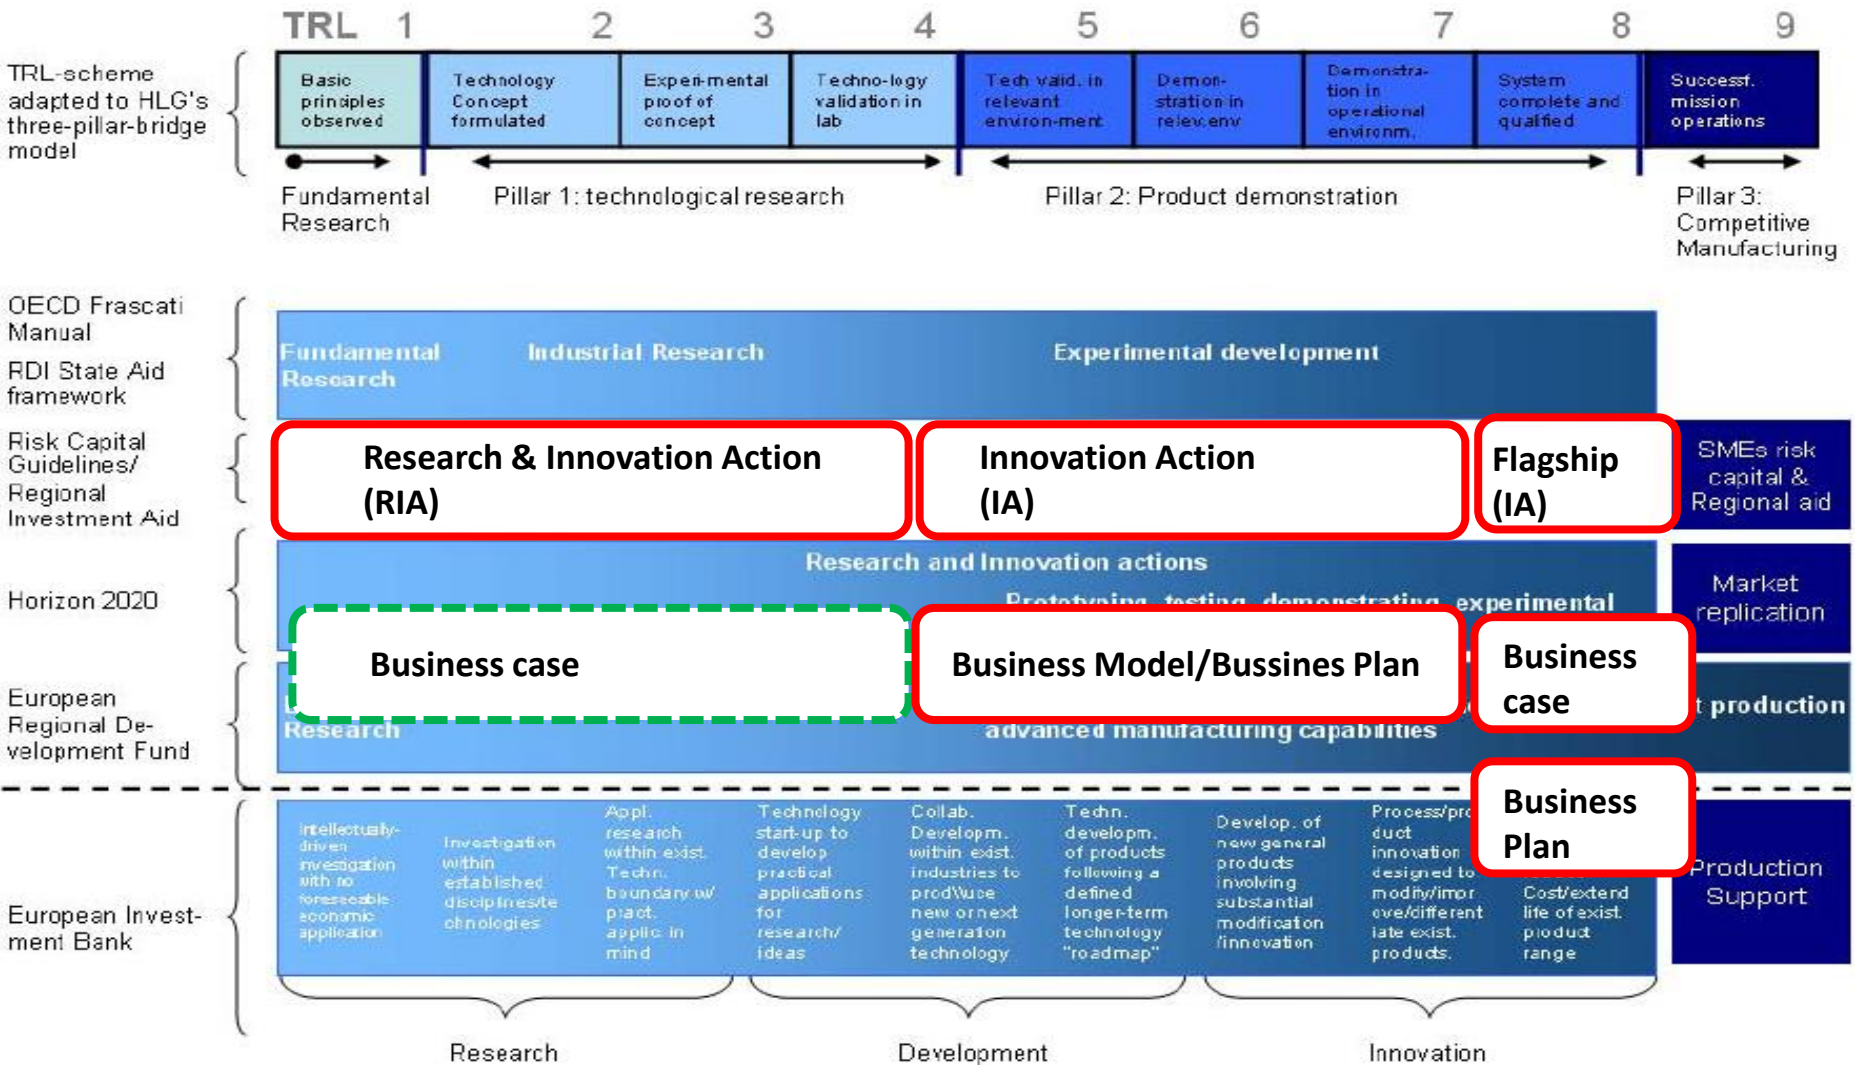

Business Case?

Business Model?

Business Plan?

Technology Readiness Levels

Bussines case/Bussines Model/Bussines Plan

- **Business case** ayuda a **capturar los motivos para el inicio de un proyecto**, idea o iniciativa. Le ayuda a decidir si merece la pena invertir en una iniciativa. En un modelo de negocio usted describe los antecedentes, los recursos, los beneficios, los costes y los riesgos de una iniciativa.
- **Business model** le ayudará a **visualizar su modelo de negocio**. Describe la justificación de como un proyecto crea, entrega y captura valor económico, social, cultural, etc. El business model Canvas consta de nueve bloques. Estos bloques muestran la lógica de la forma en que su compañía tiene la intención de hacer dinero.
- **Business plan** Ayuda a **describir lo que quiere lograr con su empresa**. Contiene detalles sobre los aspectos operativos y financieros de las intenciones de una empresa. incluye una presentación del producto y concepto, negocio y estrategia de Propiedad Intelectual (IP), modelo de negocio, socios, dinámica y tamaño del mercado, planificación técnica y operativa, análisis DAFO, y análisis financiero.

Modelo de Negocio en H2020

The Business Model Canvas

Designed for:

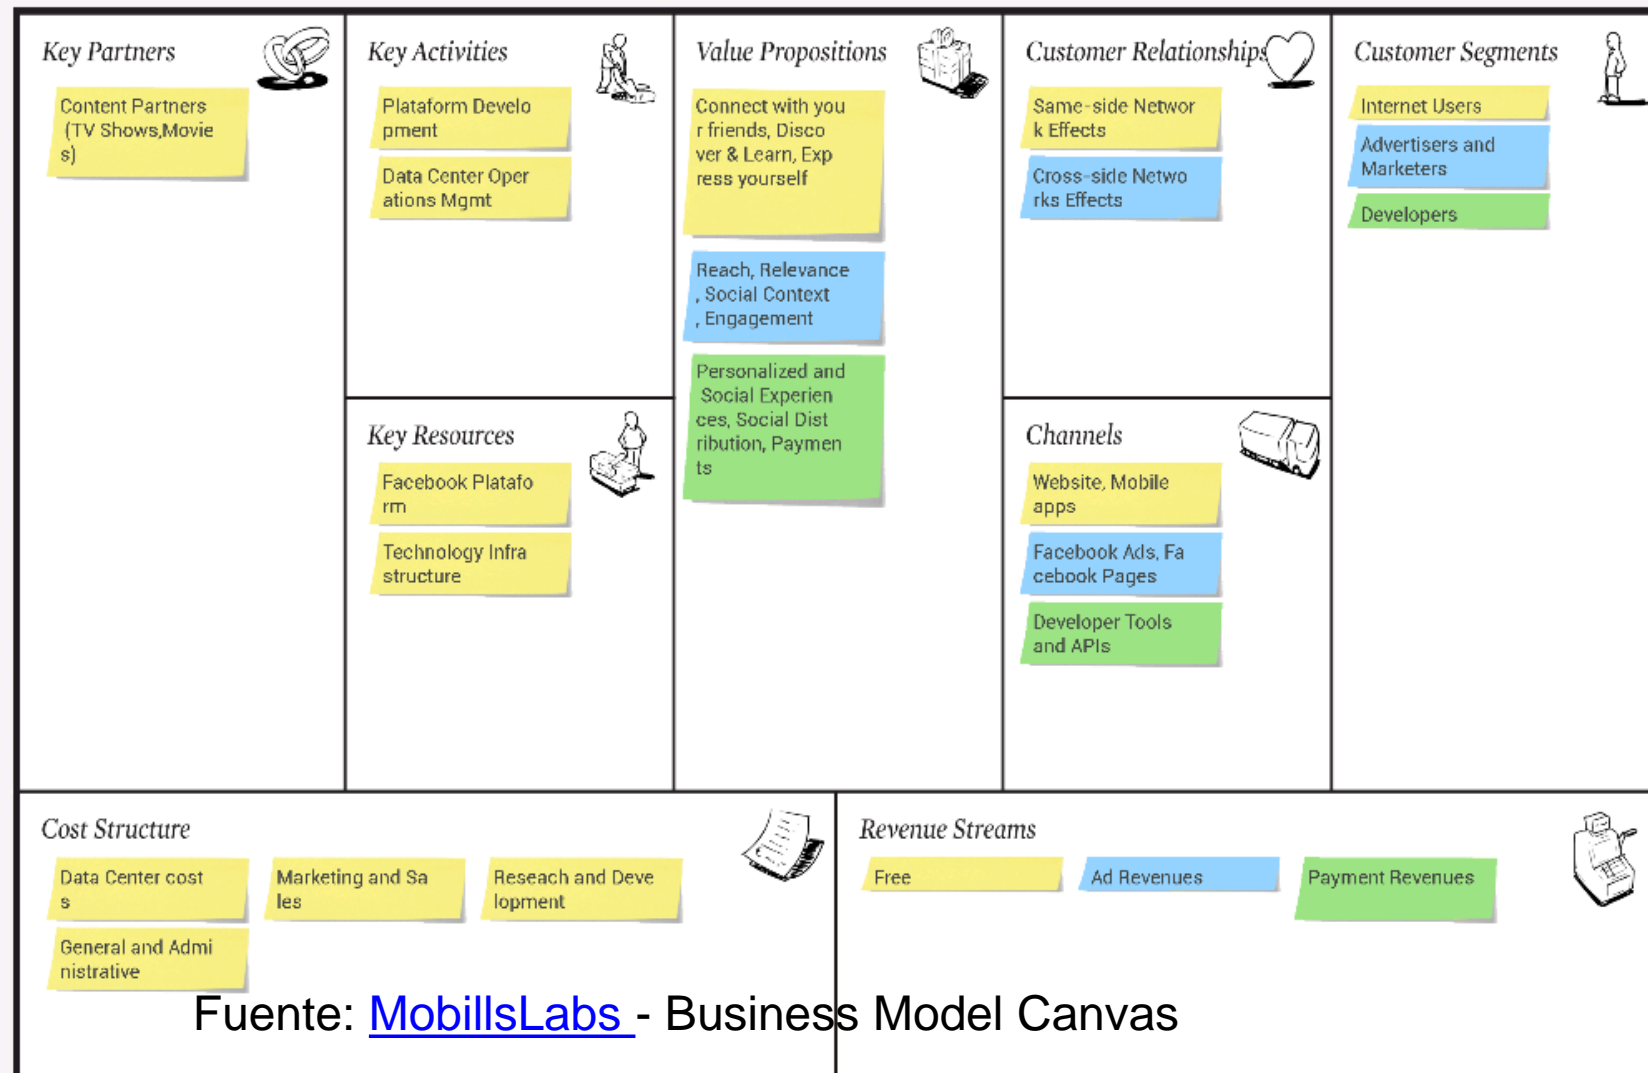

Example

Designed by:

Facebook

On: / /

Iteration: 1

Fuente: [MobillsLabs](http://MobillsLabs.com) - Business Model Canvas

Cuestiones a las que responde el Modelo de Canvas :

- **Segmento de clientes:** ¿Para quiénes estamos creando valor? ¿Quiénes son nuestros principales clientes/usuarios?
- **Socios clave:** ¿Quiénes son los socios y/o proveedores clave? ¿Qué recursos clave recibimos de ellos? ¿Qué actividades clave realizan?
- **Propuesta de valor** del proyecto: ¿Qué problema se soluciona? ¿Qué necesidades se satisfacen? ¿Qué ofrecemos? ¿Qué beneficios se aporta?
- **Actividades clave:** ¿Qué actividades clave requieren nuestra propuesta de valor, nuestros canales de distribución, nuestra relación con los clientes/usuarios y nuestras fuentes de ingresos?
- **Canales:** ¿Cuáles son los canales preferidos por los usuarios? ¿Cuáles funcionan mejor? ¿Cuáles son más coste-eficientes?
- **Flujos de ingresos:** ¿Qué valor estarían dispuestos a pagar los clientes? ¿Cómo preferirían pagar?
- **Estructura de costes:** ¿Cuáles son los costes más importantes en nuestro modelo de negocio? ¿Qué recursos clave y actividades clave implican mayor coste?
- **Recursos clave:** ¿Qué recursos necesitan nuestra propuesta de valor, nuestros canales de distribución, nuestra relación con los clientes/usuarios y nuestras fuentes de ingresos?
- **Relación con los clientes/usuarios:** ¿Qué tipo de relación esperan los usuarios que establezcamos con ellos?

Business Plan

El Business plan debe incluir:

- Descripción de los resultados explotables.
- Descripción del equipo asignado para gestionar la propiedad intelectual y explotación.
- Descripción de los mercados objetivo.
- **Modelo de negocio.**
- Proyecciones financieras: ventas esperadas, inversión necesaria, etc.
- Hoja de ruta para la comercialización del producto/servicio.

El Standard briefing y la Guía de los evaluadores de H2020

Guidance for evaluators of Horizon 2020 proposals

Version 1.1 of 26 September 2014

The below information serves as guidance both for applicants and evaluating experts. The questions are frequently asked about Horizon 2020 proposals.

History of Changes			
Version	Date	Change	Page
1.1	26 Sept 2014	Update to the description of the impact criterion	2

1. How should Innovation be addressed and evaluated in proposals?

Horizon 2020 supports all stages in the research and innovation chain and a natural integration and continuum of activities. It provides seamless funding embracing frontier research, basic and applied research, technology development and integration, prototyping, testing and validation, and demonstrating, piloting and first market replication.

The programme pays particular attention to ensuring a balanced approach to research and innovation, not only limited to the development of new products and services on the basis of scientific and technological breakthroughs, but also incorporating aspects such as the use of existing technologies in novel applications, continuous improvement and non-technological and social innovation.

La Guía de los evaluadores de H2020

Guidance for evaluators of H2020 proposals

http://ec.europa.eu/research/participants/data/ref/h2020/grants_manual/pse/h2020-evaluation-faq_en.pdf

How should **XXXXX** be addressed and evaluated in the proposals?

- **Innovation**
- **Social Sciences and Humanities (SSH) - list of SSH-relevant topics.**
- **Responsible Research and Innovation (Open Access)**
- **Public Engagement**
- **Gender dimension**
- **Transdisciplinarity**
- **International Cooperation**
- **Communication activities**

Acción por el Clima y el Desarrollo Sostenible

As **key Horizon 2020 objectives**, Climate Action (**CA**) and Sustainable Development (**SD**) are relevant to **all areas** of the programme.

- At least **35%** of Horizon 2020's **total budget** is expected to address **CA**,
- at least **60%** is expected to involve **SD**.

When drafting your proposal, please specify your **project's expected contribution to CA and SD objectives**, if applicable.

What is Sustainable Development?

Definition - development that meets the needs of the present without compromising the ability of future generations to meet their own needs within the planet's physical boundaries. Sustainable development has **economic, social and environmental dimensions**:

- **Economic** - providing economic added value through new technologies, products, services, governance or business models that improve competitiveness and prosperity, and promoting job creation or safeguarding jobs, together with related policies.
- **Social** - addressing and improving human health, quality of life, safety and security of individuals and populations, culture, skill formation, social integration and inclusion, poverty reduction, effective and democratic governance, and related policies.
- **Natural** - protecting, reducing/preventing degradation of, or restoring natural resources and ecosystems (e.g. air, water, forests, soil), and the biodiversity that underpins them.

9. EXCLUSIVE FOCUS ON CIVIL APPLICATIONS
10. MISUSE
11. OTHER ETHICS ISSUES

https://ec.europa.eu/research/participants/docs/h2020-funding-guide/cross-cutting-issues/ethics_en.htm

ETHICS APPRAISAL PROCEDURE

El proceso para evaluar y abordar la dimensión ética de las actividades financiadas en el Horizonte 2020. Asegura que todas las actividades de investigación realizadas en el marco del Horizonte 2020 se realicen de conformidad con los principios éticos fundamentales.

ETHICS APPRAISAL STEPS

Activity	Who?	When?	How?
Ethics Self-assessment	Applicant	Application phase	Consideration of ethical issues of the proposal
Ethics Pre-screening/Screening	Ethics experts and/or qualified staff	Evaluation phase	Review of application material
Ethics Assessment (for proposals involving hESC or raising serious ethical issues: severe intervention on humans)	Ethics experts	Evaluation/ Grant preparation phase	Review of application material
Ethics Check/Audit	Ethics experts	Implementation phase	Review of project deliverables/interview with applicants

Interdisciplinarity, transdisciplinarity and stakeholder knowledge

- **Interdisciplinarity** means the integration of information, data, techniques, tools, perspectives, concepts or theories from two or more disciplines. Disciplines may be from the natural sciences, technology, engineering, economics, social sciences and humanities.
- **Transdisciplinarity** is a specific form of interdisciplinarity in which boundaries between and beyond disciplines are transcended and knowledge and perspectives from different scientific disciplines as well as knowledge from societal stakeholders are integrated.
- **Stakeholder Knowledge** will be evaluated. A project may need to integrate knowledge from stakeholders beyond academic disciplines, for example; from farmers, patient groups or consumer organizations.

Participación de terceros países

Automáticamente elegibles para financiación

- Países asociados, [sixteen countries associated to Horizon 2020](#).
- Países en desarrollo- [Annex A of the Horizon 2020 Work Programmes](#).

No elegibles automáticamente para financiación. Países industrializados y economías emergentes.

Mecanismos de cofinanciación específicos ([available local support from non-EU countries for Horizon 2020 country by country](#)).

En circunstancias excepcionales los países industrializados/economías emergentes podrán recibir financiación, si:

- Existe un acuerdo bilateral entre el país y la UE.
- Si el país es identificado como relevante en el WP y convocatoria.
- Es considerado esencial por la CE para el desarrollo de la acción

Mecanismos de cofinanciación. Apoyo local disponible para países No-UE que participan en H2020:

- cubriendo gran parte de las áreas temáticas. [China](#), [Hong Kong & Macao](#), [Republic of Korea](#), [Mexico](#), [Russia](#), [Taiwan](#)
- cubriendo determinadas areas temáticas. [Australia](#), [India](#), [Japan](#)
- con mecanismos de financiación regionales: [Brazil](#), [Canada](#)
- con mecanismos de cofinanciación acordados conjuntamente: : [New Zealand](#), [USA](#)

Próximas actividades

Talleres de propuestas en las CCAA

- 4 de octubre en País Vasco. Organiza Innobasque.
- 10 de octubre en Córdoba (Universidad de Córdoba). Organiza Agencia Andaluza del Conocimiento.
- 16 octubre en Valladolid. Organiza ICE-JCYL.
- 17 de octubre en Valencia. Organiza REDIT.
- 24 de octubre en Zaragoza. Organiza CITA.
- 31 de octubre en Galicia (Santiago de Compostela). Organizan GAIN y FEUGA.
- 7 de noviembre en Barcelona. Organiza ACCIÓ.

Taller de apoyo a coordinadores en CDTI el 4 de diciembre.

Listas de distribución – insíbete en www.cdti.es

The screenshot shows the CDTI website interface. At the top left is the CDTI logo with the text 'Centro para el Desarrollo Tecnológico Industrial'. Below it are navigation links for 'Qué es el CDTI', 'Ayudas a la I+D+I', 'Internacionalización de la I+D+I', and 'Servicios'. The main content area features the 'PPIVA' logo with 'PERSPECTIVA CDTI' and 'innvierte' below it. On the right, there are four icons with corresponding text: a lightbulb for 'Ayudas a la I+D+I', a globe for 'Internacionalización de la I+D+I', a document for 'Listas de distribución', and a magnifying glass for 'Solicitud de proyectos on-line'. A red arrow points from the text box above to the 'Listas de distribución' link.

Conclusiones

- Dar respuesta a todo lo que pide el topic
- Hemos de convencer a 3-5 evaluadores, de distinto perfil.
- Ponerse en el lugar del evaluador. Tener en cuenta los criterios y subcriterios de evaluación.
- Los cross-cutting issues son importantes para diferenciar la propuesta.
- El impacto es la clave y una implementación impecable fundamental.
- Utiliza toda la ayuda disponible (IPR Helpdesk, NCP, ...)
- Toda la información de apoyo está disponible en el H2020 Online Manual del portal del participante.
